Bilvavi Part 9 - 41 Private Redemption

בלבבי ח"ט. פרק ב. עמ' מא

There is a private redemption, as well as public redemption for the masses. The public redemption will come in its time - whenever Hashem wants it to happen. But there is a private redemption which takes place for each person who works on it; and it is given to a person by Hashem as a gift, just as Hashem will bring the general redemption as a gift to the masses.

But before anything, we need to know: What is redemption? What is the true reality?

It is by firmly establishing in our thoughts - without even delving into this intellectually - there is a Creator, and His creations are not separate from Him (they are integrated with Him).
